**EXHIBITORS**

**303 – CDC, PHSIPO, DNDHI**  [www.intranet.cdc.gov/osels/phsiopo/dndhi.html](http://www.intranet.cdc.gov/osels/phsiopo/dndhi.html)

Federal Government agency - The Division of Notifiable Diseases and Healthcare Information (DNDHI) leads the integration of statistical, epidemiologic, and informatics methods for public health surveillance and evaluation using electronic healthcare data sources to support federal, state, and local stakeholders. In addition, this division leads and supports state and local notifiable diseases surveillance systems—monitoring diseases that are reportable under state laws and aggregating these data for use by CDC programs.

The mission is to support and advance public health surveillance and promote timely access to and effective use of health-related data to inform decision making and action from the local to global levels.

**108 – CDC, Epidemiology and Analysis Program Office**
